

# Steel Support Bracket

Our Steel Support Bracket is a versatile and durable fixing solution, designed to securely connect and support structural elements in a wide range of applications. Manufactured from high-quality galvanised steel, it provides exceptional strength and stability, making it ideal for use in construction, industrial, and heavy-duty installations. Engineered for reliability, the bracket features precision-cut mounting holes for easy installation and compatibility with various fasteners. Its corrosion-resistant finish enhances longevity, ensuring performance even in demanding environments. Whether used for framing, reinforcement, or load-bearing connections, our Steel Support Bracket delivers superior support and durability you can trust.

## Features

- ◆ **Typical applications:** Ideal for securing and connecting structural elements in construction, industrial, and heavy-duty applications, including framing, reinforcement, and load-bearing connections. Suitable for use in commercial buildings, factories, warehouses, transportation infrastructure, and offshore platforms.
- ◆ **Material:** Galvanised Steel.
- ◆ **Warranty:** Lifetime.

Suitable for  
indoor and outdoor use

# Steel Support Bracket

## Technical Specification

Chemical resistant: Yes

Cut to length: Yes

Dry area: Yes

Wet area: Yes

Oily and greasy area: Yes

Environment: Suitable for indoor and outdoor use

Flame retardant: Yes

Product testing:

- ◆ Grade of Steel: S275J2
- ◆ Classification: EN 10025-2, Class 1
- ◆ Conforms to: EN 1993-1-8:2015

UV resistant: Yes
